**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-17 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Neither the references cited nor the cited references teach or suggest a wiring, power distribution, and control system for an automotive vehicle of the type having an electrical power source and a plurality of controllable load devices in different locations throughout the vehicle in combination comprising:

a first circuit board carrying a micro-controller having control signal inputs connected to a network, and power control signal outputs, the first circuit board further carrying a plurality of power switches having input terminals connected to the power control signal outputs of the micro-controller and output terminals connected to specific load devices; and

a second circuit board having terminal connectors connected to a control signal network, power lines and load devices, and means interconnecting the terminal connectors to the micro-controller for control signal input purposes and the power switches to the terminal connectors for power output purposes (claims 1-12);

a second circuit board electrically interconnected with the first circuit board and carrying terminal connectors for connecting the network to the micro-controller and the switches to load devices; wherein the first circuit board is mounted to the second circuit board (claims 13-17).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
